

***About the Pricing**

The final price is broken down in this way: the price of the artwork and the 20% service fee. We return 100% of the price of the artwork to the artists, because we believe in supporting artists and their careers. The 20% service fee helps keep our organization running. We are a charitable organization supporting programs for artists with lived experience of mental health and addiction, and this is an important piece of our operational budget.
